September 27, 2022

Dr. Tamarah Pfeiffer, President
Southwestern Indian Polytechnic Institute
9169 Coors Blvd. NW
Albuquerque, NM 87120

President Pfeiffer:

At the September COA meeting, the Commissioners voted to accredit the Vision Care Technology Program and Optical Technology/Laboratory Program at Southwestern Indian Polytechnic Institute for six years, expiring February 22, 2027. This date is retroactive to the original expiration date of February 23, 2021. This delay was due to COVID, when we were not sending on-site teams.

The Commissioners were impressed with the enthusiasm and dedication of the Program Director – Samuel Henderson, and the faculty of the program.

We are honored to list the Vision Care Technology Program and Optical Technology/Laboratory Program at Southwestern Indian Polytechnic Institute among those programs accredited by the Commission on Opticianry Accreditation.

Sincerely,

A handwritten signature in black ink that reads "Debra R. White". The signature is written in a cursive style with a small dot above the letter 'i' in "White".

Debra White
Director of Accreditation

C: Sam Henderson, Program Coordinator
Dr. Milford Muskett, Department Chair - Advanced Technical Education
